

Course:

Microsoft Word 2016: Basic

Course Details

Duration: 1 Day

Summary

This course covers the basic functions and features of Word 2010. After an introduction to Word's window components, students will learn how to use the Help system and navigate documents. Then they will enter and edit text, create and save documents, and learn how to enhance the appearance of a document by using various formatting options. They will also create tables, insert headers and footers, proof and print documents, and insert graphics. For comprehensive certification training, students should complete the Basic, Intermediate, and Advanced courses for Word 2010.
