**Course Description:**

Information security is of utmost importance to both you and your stakeholders. Our instructor has developed a comprehensive course that provides an in-depth examination of the impact of the International Standard for Information Security Management (ISO/IEC 27001:2022).

This course will provide you with an understanding of effective information security management by using a systematic framework to protect confidentiality, integrity and availability of your information.

Course Objectives:

- Identifying key requirements and benefits of ISO/IEC 27001:2022
- Managing information security in your organization
- Taking steps to ensure data security is a priority of your organization
- Attracting and retaining customers by better meeting current and future information security needs

How You will Benefit:

- By the end of this training course, you will be able to
 - Explain the origins and changes of the ISO/IEC 27001 standard
 - Explains what an information security management system (ISMS) is
 - Identify the benefits of ISMS
 - Know the terms and definitions
 - Identify key concepts, principles, and structures
 - Identify key requirements of the ISO/IEC 27001 standard

Course Outline:

- Explain key changes in Annex A, reflecting the changes contained in ISO/IEC 27002:2022. These changes are:
 - The overall structure has been improved into 4 main sections
 - Organization, Person, Physical and Technological replacing the 14 sections in the previous issue
 - Control measures (Controls) decreased from 114 to 93 items
- Some control measures are included and some were removed. New control measures are introduced, and others are updated.
- The concept of attributes has been introduced
 - It is consistent with the terminology commonly used in digital security. These 5 attributes are control type. Information Security Features Cyber Security Key Concepts operational ability and security groups

Language:

- Class will be in Thai, Document will be in English

Class Method:

- Lecture with instructor lead workshop and discussions

Who should Attend:

- Manager/IT Manager/System manager
- Executive representative of ISO/IEC 27001
