Course Description:

This course provides participants with a practical foundation in modern project management, covering the complete project lifecycle—from project initiation and planning through execution, monitoring, and project closure. The curriculum integrates internationally recognized best practices with real-world case studies, enabling participants to effectively manage projects in today's dynamic business environment. It also introduces the practical application of AI-powered tools to enhance project planning, analysis, documentation, and decision-making.

Learning Objectives:

Upon completion of this course, participants will be able to:

- Understand project management principles, project life cycles, and process groups.
- Develop key project planning deliverables, including Project Charter and Work Breakdown Structure (WBS).
- Plan and manage project scope, schedule, cost, and risk.
- Apply scheduling techniques, including Network Diagrams and Critical Path Analysis.
- Monitor and control project performance using project dashboards and Earned Value Management (EVM).
- Manage stakeholders, communications, and project changes effectively.
- Leverage AI tools to improve project planning, reporting, risk analysis, and project documentation.
- Conduct effective project closure and capture organizational lessons learned.

Course Outline:

Day 1 – Project Planning Fundamentals

- Introduction to Project Management
- Project Life Cycle & Process Groups
- Project Charter & Stakeholder Management
- Scope Management & Work Breakdown Structure (WBS)
- Schedule Management, Network Diagrams & Critical Path Analysis

Day 2 – Project Execution & Control

- Cost & Risk Management
- Project Monitoring & Control
- Change Management & Project Dashboards
- Earned Value Management (EVM)
- Project Closing & Lessons Learned
- AI Applications in Project Management

Hands-on Workshop (AI-Enabled):

Throughout the course, participants will complete an integrated case study using **AI-powered productivity tools** (such as ChatGPT, Claude, Gemini, or Microsoft Copilot) to:

- Develop a Project Charter
- Create a Work Breakdown Structure (WBS)
- Identify and analyze stakeholders
- Build a Risk Register
- Develop Network Diagrams and Critical Path
- Generate Project Status Reports and Dashboards
- Perform Earned Value Analysis (EVM)
- Document Lessons Learned and project deliverables

Key Features:

- Aligned with world class project management concepts
- Balanced coverage of predictive, agile, and hybrid project management approaches
- Extensive hands-on workshops using AI-powered project management tools
- Practical case studies focused on real-world business applications

Target Audience:

- Project Managers
- Project Coordinators
- PMO Professionals
- Team Leaders
- Business Analysts
- IT Managers
- Functional Managers
- Professionals responsible for managing or participating in projects

Why Boston Network?

- **World Class Curriculum** - our course curriculums incorporate best-in-business thinking and practices and are designed for all organizational levels.
- **Renowned Trainers** - all our seminars, conferences are led by senior executives, managers, authors, educators, consultants, even CEOs. They're not only skilled speakers, but top business practitioners who have been in the trenches
- **Satisfaction Guarantee** - we are totally focused on customer satisfaction. Our 100% customer satisfaction guarantee is the factor that will distinct us from others.
- **Experienced Training Specialist** - with more than five years of experiences, we bring in latest business know-how, world-class cutting edge management knowledge, and valuable insights to Thai society. We held over 200 seminar events each year with more than 10,000 executive participants countrywide.

100% Satisfaction Guarantee

After attending Boston Network seminar or event, if you are not fully satisfied that we have delivered everything promised. Simply notify the seminar administrator by the lunch break and we will refund the entire registration fee.
